

SANDING DISC NET PERFECT

Net sanding disc for high material removal for sanding plasterboard, hard and soft woods, varnish, fillers, plastics and non-ferrous metals.

Clean working

The open structure of the net sanding disc enables sanding dust to be extracted thoroughly and over the whole area.

Hole-independent

Adapts to any grinding plate

Higher material removal rate as well as a considerably longer service life compared with conventional perforated sanding discs

Net structure

Adhesive system	Hook and loop
