

## SHEET METAL SHEARS

<b>Art. No.</b>	<b>0714 03 10</b>	<b>0714 03 09</b>
<b>P. Qty.</b>	1/5	1/5
<b>Version</b>	Left-hand cutting	Right-hand cutting
<b>Length (L)</b>	280 mm	280 mm

### Application area

For continuous straight and shaped cuts

**Inductively hardened cutting edges guarantee a long service life and optimum cutting results**

- Fully forged sheet metal shears (head and handle)
- For sheet thickness up to 1 mm
- Cutting length 34 mm

## SHAPE-CUTTING SNIPS

<b>Art. No.</b>	<b>0714 03 08</b>
<b>P. Qty.</b>	1/5
<b>Version</b>	Right-hand cutting
<b>Length (L)</b>	250 mm

### Application area

For short, straight and shaped cuts. Particularly ideal for tight radii

**Inductively hardened cutting edges guarantee a long service life and optimum cutting results**

- Fully die-forged sheet metal shears (head and handle)
- For sheet thickness up to 1 mm

## PUNCH SNIP

<b>Art. No.</b>	<b>0714 03 19</b>	<b>0714 03 18</b>
<b>P. Qty.</b>	1/5	1/5
<b>Version</b>	Left-hand cutting	Right-hand cutting
<b>Length (L)</b>	250 mm	250 mm

### Application area

For short, straight and shaped cuts. Particularly ideal for tight radii

**Inductively hardened cutting edges guarantee a long service life and optimum cutting results**

- Fully forged sheet metal shears (head and handle)
- For sheet thickness up to 1 mm
- Cutting length 37 mm
