

1/4 INCH BIT HOLDER, MAGNETIC

Innovative bit holder with one-hand quick-change function

Very rapid and simple bit replacement

One-hand quick-change function:
Pressing lightly on the knob to shoot the bit forwards.

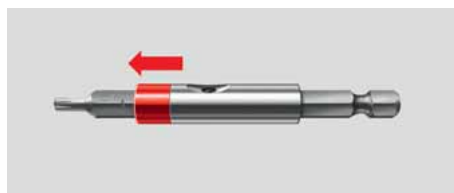

Access deep and hard-to-reach screw heads

Very slim design (Ø max. 10.5 mm)

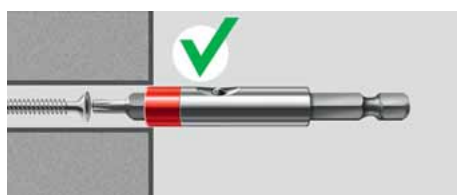

For bits with hexagon head drive to DIN 3126

To change the bit, just push the ball into the socket.

The bit easily detaches from the magnet and unlocks the bit holder. Bit can be removed without any problems.
Thanks to the return spring, the bit is positioned for easy removal.

Very sleek bit sleeve, max. diameter of 10.5 mm.
