

Special Cable Ties for Single-Hole Installation

These cable ties allow economical single-hole installation:

- **Without attaching parts, screws, adhesive, etc.**

In contrast to our standard cable ties with molded tie head – which requires a 90° insertion angle – these cable ties have a movable locking head. This allows parallel insertion of the end of the cable tie and results in correct seating

- UV-resistant.
- Heat-stabilized.
- Temperature stability from –40°C to +85°C.
- Material: Polyamide 6.6.
- Halogen and silicone free.
- *DC Orig. No. 001 997 8390.
- **DC Orig. No. 001 997 8490.
- **UL certified.**

1		1 Simply drill a hole with the diameter of the cable tie into the mounting wall and thread the cable tie through.
2		2 Wrap the cable tie around the bundle, hose, etc. and guide the end of the tie back through the hole in the locking head and pull tight.
3		3 Finished. The locking head serves as an attaching part.

Bore hole Ø		Locking head height mm	Dimensions			Art. No. black	Pack Qty.
min. mm	max. mm		width mm	length mm	Bundling Ø mm
