

Pocket Tape Measures

High-quality tape measures with plastic housings, for easy measuring in all measuring situations.

- Plastic housings, low weight and no corrosion.
- When rewinding the end of the tape is cushioned with a shock absorber (see **illustration 1**), resulting in longer service life of the tape.
- Yellow enameled steel tape with cm/mm division and moveable end hook (see **illustration 2**).
- Extremely stable due to curved tape (see table below), tape can be extended far before it folds up.
- Pocket tape measures conform with EU accuracy class II.
- All tape measures with removable belt clips and plastic loops.

Pocket Tape Measure

High-quality tape measure with plastic housing for interior and exterior measurements.

- With sight-glass for interior measurements.
→ Measurements can be taken easily even in tight spaces.
- Extendable compass point for marking of radii.
→ Reduces the shop equipment and problem solving.
- Plastic housing, thus low weight and no corrosion.
- The pocket tape measure conforms to EC accuracy class II.
- White enameled steel tape with cm/mm division and moveable end hook.
