

CABLE TIE EDGE CLIP

Edge clip with integrated metal clip for coupling and securing cables, lines and pipes.

An alternative wherever drill holes are not an option and adhesives cannot be used due to high temperatures.

Simple tool-free assembly

- The edge clip is simply attached by hand onto the plastic or sheet metal edge.
- The integrated spring steel metal clip is resistant to corrosion and guarantees a secure hold on the edge.

Flexible application thanks to assembly of the cable tie in four directions:

- At a 90° angle or parallel to the edge
- On or to the side of the edge

For edges from 0.7 to 3.0 mm

For cable ties up to a width of 4.8 mm

Art. No.	0502 502 000
P. Qty.	100
Width	14 mm
Colour	Black
Length	14 mm
Material	PA - Polyamide
