

TWIST DRILL ASSORTMENT HSCO DIN 340 TYPE RN OXIDE

19 pieces Long, precise, high-performance drill for deep drilling in stainless steel (e.g. V2A, V4A), heat-resistant steels and titanium. Also suitable for general broader applications in steel with strength up to 1,000 N/mm² and in cast iron.

Rapid drilling with perfect chip removal

Large chipping spaces and small core

Ideal for producing core drill holes

Highly precise tip grinding for precise drilling

Notice

- When using the twist drill according to DIN 340, prior drilling of a centring bore is recommended. Our NC spotting drills (art. no. 063644 etc.) are perfectly suited to this.
- Also recommended in conventional steel if longer service life compared to uncoated HSS drills is a priority.
- See overview tables for drill/material assignments

Art. No.	0626 200 001
P. Qty.	1
Number of pieces in assortment/set	19 PCS
Surface	Oxide finish
Standard / drilling depth	DIN 340 / 10xD

Contents for Art. No.	Designation	Art. No.	Number
