

## ONE-EAR CLAMP WITH INSERT RING

**Low overall height for connections in the tightest of spaces**

**Low installation height, small clamping range**

Precise assembly even in the narrowest spaces

|                                    |                            |

### Application area

Fuel line systems, air-conveying pipes, airbag, cooling water/heating, clamping/fastening, oil and low-pressure hydraulics

### Notice

The outside diameter of the hose mounted on the connector should be approximately in the middle of the clamp's range.
