

# LIFTING STRAP

## Compliant with DIN-EN 1492-1

- Made of high-strength polyester
- Flat woven fabric, with crane loops at both ends
- High load-bearing capacity despite low weight
- Color-coded load-bearing capacity indication
- Reinforced crane loops
- Various sling configurations are possible
- Protects surfaces
- GS-tested

## Application

- Lifting straps can be used in a temperature range from  $-40^{\circ}\text{C}$  to  $+100^{\circ}\text{C}$ .
- Extremely rugged and durable sling for all types of loads.
- Thanks to their low weight and great flexibility, lifting straps have excellent handling properties, which is why they are used both at plants and construction sites.
- Considerably less danger of injury compared to conventional slings.
