

Cable Installation System

Fiberglass, 3 mm dia.

- For easy cable installation with electrical, telephone and antenna cabling.
- Saves lots of time when installing cables.
- Stably-advancing, sliding sheathing on fiberglass profiles with a variety of guide heads.
- For use in partially-filled and heavily curved pipe systems and with very narrow bending radii.
- The high-quality fiberglass profile allows for extreme curves and bends with a minimum radius of 30 mm.
- Cable towing handle allows for maximum transmission of force.

Complete set comprised of:

- 3 mm fiberglass profile.
- Two start sleeves, attached on both sides.
- Three guide heads → 8, 11, 14 mm in diameter.
- Two connection sleeves (for repairs).
- Two towing rings.
- Two cable pulling stockings (4 - 6 mm and 6 - 9 mm).
- Fiberglass adhesive, 5 g, Art. No. 0893 090 0.
- Cable towing handle.
- Detailed operating instructions.
- Max. towing load: 100 kg.
