

DRY MARKER

Appearance									
Designation	Painter Paste Marker – no tips			Permanent Marker Set	Graphite refill for permanent marker	Refill (all-surface) for permanent marker			
Type	Permanent (waterproof)			Non-permanent					
Line thickness	approx. 10 mm			approx. 1-3 mm					
Tip	Round tip								
Features	Paste marker with rotating mechanism. Ideal for surfaces with poor adhesion properties (soiled, oily materials, rusty metals etc.). Can be used under water! Paste marker with highly-permanent color paste which covers well. Ideal for craftsmen. Also covers on dark surfaces. Light-resistant. Resistant to wiping and water after drying.			Stable metal design with practical clip. Sharpener for graphite refill in the cap. Content: 2 x permanent marker 6 x graphite refill 6 x red refill 5 x yellow refill		High-quality alternative to the traditional "carpenter's pencil". Refill dia.: 5.6 mm		Paste marker for wet and dry surfaces. Refill dia.: 5.6 mm	
Application	Virtually all surfaces, e.g. film, glass/porcelain, stone/concrete/aerated concrete/screed, plastic/metal/wood, greasy surfaces, underwater applications, polystyrene etc.			See replacement refills		Wood, paper, card etc.		Almost all surfaces such as car paints, tiles, brick, wood, glass, rubber, car tires, ceramic, concrete, metal, plastic etc.
