

Universal Cutters

Levered universal cutters for continuous cuts

- Extra-long and laterally-offset cutting.
→ Suitable for continuous, long, straight cuts.
- Stainless steel cutting head.
→ Extremely wear-resistant and with a long service life.
- Stable, torsion-free steel handle, bright nickel-plated.
→ No corrosion and a long service life.
- Angled cutting head.
→ Manually guided right across the material, no risk of injury.

For metal plates, braided wires, plastic grilles, elastic and textile floor coverings, paperboard, leather, insulating material, fleece.
