

HEAT-SHRINK HOSES

Shrinking rate 2:1 without internal adhesive

Black on large coils.

- High-performance, flexible multi-purpose heat-shrinking hose.
- Cross-linked on polyolefin basis.
- Self extinguishing.
- Flame-retardant.
- Good electrical, chemical and physical properties.
- Round blank diameter: 390 mm

Technical data:	
Shrinking rate	2:1
Temperature range	-55°C to +135°C
Shrinking temperature	> +90°C
Change in length after shrinking	approx. ± 10%
Dielectric strength	20 kV/mm
Internal adhesive	-
Certifications	UL 224
