

Normal corundum:

For general workshop use, for grinding of normal steel, iron, forging grade steel etc.

Special fused alumina:

For hardened steel and tools made of tool and high-speed steel, hardened tool steel etc.

Grinding Wheels Ceramically Bound

For various bench grinders.

- Type A, straight.
- Tool grinding machines or other stationary grinding machines.
- Qualities: normal corundum, grey special fused alumina, white, silicium carbide grey/green.

Silicium carbide:

For grey cast iron, hard and malleable iron, autogenous welds, for hard metal, aluminium, porcelain, glass, natural and artificial stone.

Adapter Sleeves

Made of plastic for bores (reducing bushes).

Outer dia. mm	Inner dia. mm	Art. No.	Pack Qty.
