Transfer Tape

Double-sided transferrable universal film

- Double-sided transferrable universal film.
- This product has strong adhesive properties and is mainly used for the regluing of emblems and logos to vehicles.
- Heat resistant up to 180°C.
- The double-sided transferrable film is versatile due to its adaptation form and can be used quickly and easily.

Application

- Remove the emblem from the vehicle and the residual adhesive on the back of the emblem. Clean the surfaces to be adhered with a silicone-free cleaner (Fig. 1).
- Remove the protective film and place the transfer tape strips on a smooth surface. Position the emblem on the adhesive surface and apply it evenly (Fig. 2).
- Then remove the emblem from the strip (Fig. 3).
- Position it on the vehicle and apply it evenly (Fig. 4).
