

## Wall cassette with belt pull-out for barriers

**Alternative to a bollard if a permanent barrier is required or space is limited.**

**Suitable as primarily visual or symbolic barrier.**  
The pull-out belt can be attached to a stop post, wall cassette or wall clip.

### Space-saving and cost-effective barrier

Permanent barrier with a small space requirement

### 3-way belt cassette

2 belts can be attached per post and the position of the belt outlet is freely adjustable

### Automatic retractor with brake function

Safe return and storage of the barrier belt

### Cassette and belt colours have a signalling effect

**The barrier can be flexibly configured using bollard and wall clip**
