Balancing Weights for Alloy Wheels

Suitable for: nearly all alloy wheels, including FORD TRX wheels. Not for MERCEDES-BENZ FUCHS wheels (forged).

Special features: surface finish saving installation, assembly friendly.

Suitable for: nearly all alloy wheels, including FORD TRX wheels. Not for MERCEDES-BENZ FUCHS wheels (forged). Particularly recommended for polished or clear lacquer coated wheels in order to prevent contact corrosion.

Special features: silver-grey impact resistant plastic coating.

Suitable for: alloy wheels with small sealing zone between rim and tire, e.g. some VW models, FIAT, BMW, FORD, OPEL. Particularly well suited for polished or clear lacquer coated wheels.

Special features: silver-grey impact resistant plastic coating, corresponds to OPEL original equipment.

Shorter retaining spring prevents tire deflation.

Wheel Weight Pliers

- With cropping facility and hub cap remover.
- For fixing and removing of wheel weights.
- Spreading and squeezing of retaining springs.
