**Ideal for flexible storage of small parts, machines and tools used with consumables**

**Compatible and flexible thanks to grid dimensions**

- Allows for individual grouping of contents used for different work
- Compatible with case and content organising systems such as the ORSY1 component tray system, the ORSY BULL box system, the TOOLsystem workshop trolley and the vehicle interior equipment system

**Combine several cases**

Integrated rail contour and coupling elements allow you to combine multiple cases and transport equipment safely.

**With a number of functional elements**

- The lid and base structure allows the boxes to be positioned, while preventing the contents from getting mixed up
- Simple opening and closing with closures with recessed handles
- Label section for adhesive or inserted labels

**Very easy to carry**

- Large handle design
- Integrated soft elements and wide swivel radius to take the pressure off hands and wrists
- Handle with up to 60 kg capacity

**Ideal overview**

Transparent lid gives a clear view of contents.
