

24 VOLT FOR UTILITY VEHICLES

Professional – One bulb for tough utility vehicle use

Heavy-Duty Longlife stands for increased vibration resistance with a longer service life compared to ordinary 24 V bulbs. These lamps were developed to withstand extreme road conditions (vibrations) and to increase the service life.

Your advantages at a glance:

- Increased service life and fewer bulb changes
- Rugged filament technology withstands extreme road conditions
- Extremely long service life cuts costs and avoids downtimes
- Available for all light functions
