

Lambda Probe Tools

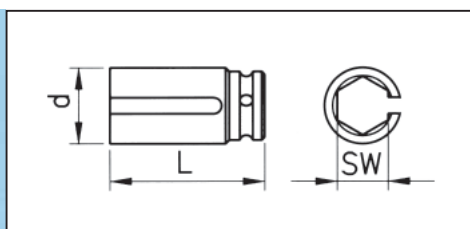

- Special hardened steel for heavy duty application.
- Nuts of non removable cables are equipped with slots, thus possible damage is prevented.
- Time and cost savings for the workshop.
- Suitable for all types of lambda probes.

Spanner width mm	Length mm	d ₁ mm	Weight g	Art. No.	Pack Qty.
22	110	33	328	0714 51 60	1

1/2" Lambda socket, Long

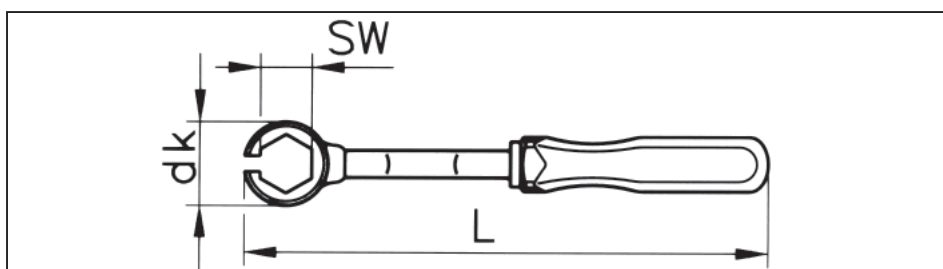

- Slotted, with turned collar.
- For all long, including heatable probes with non-removable cable (e.g. Ford, Opel, Nissan, VW and the new Mercedes-Benz multiple valve models).

Spanner width mm	Length mm	d ₁ mm	Weight g	Art. No.	Pack Qty.
22	70	33	222	0714 51 61	1

1/2" Lambda socket, Short

- Slotted.
- For all short, including heatable and non-heatable probes with non-removable cable (e.g. Ford, Opel, Nissan).

Spanner width mm	Length mm	d ₁ mm	Weight g	Art. No.	Pack Qty.
22	230	37	301	0714 51 62	1

Hexagon Head Lambda Spanner

- For all probes installed horizontally in front of the bulkhead (e.g. probes for VW Golf and Passat models).
