

NYLON STEERING WHEEL COVER

Dia. in mm	Width in mm	Art. No.	P.Qty.
220-370	100	0899 500 020	1

Rugged and reusable

- PU-coated special Nylon fabric
- Waterproof, repels oil and grease
- Optimum fit thanks to the circumferential rubber cord
- Reinforced with fabric band
- Washable up to 40 °C

PE STEERING WHEEL COVERS ON ROLL

Elastic and slip-resistant

- White oil- and water-resistant PE film
- Optimum strength and elasticity thanks to its high material thickness of 39 µm (0.039 mm)
- One roll is sufficient for approx. 500 steering wheels
- Precise perforations ensure high-quality tearing off
- Protected from dust by a practical dispenser box

*Width incl. cardboard tube

PE STEERING WHEEL COVERS ON ROLL

Flexible and easy-to-handle thanks to matching handle

- Transparent continuous PE adhesive film
- Especially flexible thanks to its low material thickness of 13 µm (0.013 mm)
- Easy to use thanks to included handle
- One roll is sufficient for approx. 200 steering wheels
- Also suitable for other packaging applications
