

Bit holder with 1/4" and hexagon drive

- Smallest size of any bit holder.
The total length does not increase when used with a ratchet.
→ Permits use in tight, hard to get at places.
- Countless possibilities for combination with drive tools
→ All-purpose and efficient.
- For use with:
 - ratchets, Tee-handles, articulated handles, extensions and universal joints with 1/4" square take-off.
 - screwdrivers with 1/4" square take-off.
 - 13 mm open end, ring and ratchet wrenches.
 - drills with 1/4" square adapters.
