Toothed Disks

acc. to DIN 6797

ET, with external teeth
IT, with internal teeth

Galvanized steel, blue pass. (A2K)

Toothed disks are spring-loaded fastening elements and act by means of their axial spring action.

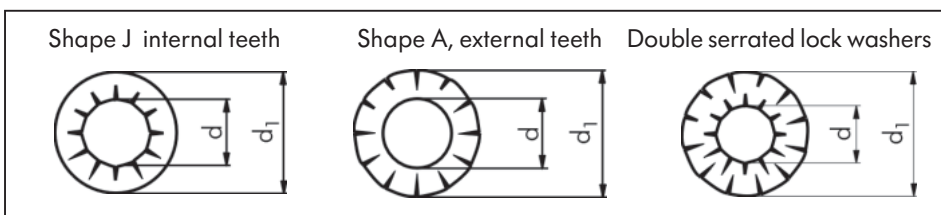

Assortment

Contents: Lock washers DIN 127, **galv., blue pass.** 6 dim., from 4 mm to 12 mm = 600 parts
Serrated lock washers DIN 6798, with external teeth, **galv., blue pass.**, 6 dim. from 4 mm to 12 mm
= 600 parts, total 1200 parts
Art. No. 0964 441

Serrated Lock Washers

acc. to DIN 6798

ET, with external teeth
IT, with internal teeth

Galvanized steel, blue pass. (A2K)
Galvanized steel, yellow pass. (A2C)

Double Serrated Lock Washers

Serrated lock washers are almost positive-fitting securing elements that lock with the surface of the components when the screw or nut is tightened.
